To: Pam Cherry <pcherry@co.morgan.co.us>

Pam,

Per Section 2-455(a) of the Morgan County Zoning Regulations, the applicant would like to request a three (3) year vesting period from the time of approval for the Liberty Pipeline SUP. The applicant understands that any subsequent amendments to the approved SUP are not subject to vesting and must be approved the appropriate approval authority at the County's direction.

Thank you. Will you email a formal request for the vesting per Section 2-455(a) for the file?

Morgan County Board of Commissioners

Fort Morgan, CO 80701

Morgan County Commission & Staff:

First, I would like to thank you for taking the time to review my comments on this important matter. I am submitting this letter to show my support for the Liberty Pipeline project.

We must support projects like these so that we can begin the work to recover economically. This project gives a glimmer of hope that we can return to normal and make sure our neighbors who work in oil and gas will be able to feed their family. I ask that you please approve this project and support your neighbor. It will take all of us together to rebuild our county and country's economy.

Best regards,

James Thomforde

Dear Morgan Commissioners:

I appreciate your time and the opportunity to speak with you on this project. I write to you today to express my support for the Liberty Pipeline Project. Morgan County, like so many of our neighbors, has been hit hard by the current economic situation. Now, more than ever, we must encourage business and industry in our county and show others how we can get back on our feet.

The Liberty Pipeline will bring important construction jobs to our community. These jobs will bring much needed commerce to our hotels, restaurants and retail businesses. If we do not support this project and similar future projects, Morgan County, will undoubtedly suffer. Keeping and creating jobs in our community is vital for our local economy to recover. Thank you for your time and consideration.

Best regards,
