It is a business that provides a needed service to the public. The file includes an exhibit stating that they are located within 1,300 feet of a CAFO and understand that this may result in additional traffic, noise and smells.

*The use and its location as proposed are in conformance with the Morgan County Comprehensive Plan.*

The property is located in the northwest planning area as defined by the Morgan County Comprehensive Plan. In this area of Morgan County uses that are compatible with dairy and feeding operations are encouraged. A slaughter house, meat processing and smoking would be considered compatible.

*All the application documents are complete and present a clear picture of how uses are to be arranged on the site or within Morgan County.*

The application is complete and presents a clear picture of how the uses are to be arranged on the 20 acre site.

*The Site Plan conforms to the district design standards of these Regulations.*

The Site Plan meets the district design standards of the Morgan County Zoning Regulations pursuant to Sections 3-620 through 3-710.

*All on and off-site impacts have been satisfactorily mitigated either through agreement, public improvements, site plan requirements or other mitigation measures.*

Impacts to surrounding properties will be minimal. All surrounding properties are zoned Agriculture Production. An increase in traffic is not anticipated with the addition of the smoke house.

*The special use proposed has been made compatible with the surrounding uses and adequately buffered as determined by the County.*

Buffering from adjacent agricultural uses is not necessary as many of the surrounding uses are also agricultural and compatible.

*The special use poses only the minimum amount of risk to the public health, safety and welfare as set by federal, state or county regulations, whichever is the strictest.*

The addition of a smoke house and meat process will not change the risk to public health safety and welfare. Some of the services provided on the property have been supplied for many years.

*The special use proposed is not planned to be developed on a non-conforming parcel.*

This parcel is not a non-conforming parcel.

# COMMISSIONERS PROCEEDINGS 5

*The applicant has adequately documented a public need for the project, all pertinent technical information, and adequate financial resources to implement it, and has paid all fees and review costs levied by the County for application processing and review.*

The public need for the project is demonstrated by the use of the property for a portion of the uses on the property that have been there for many years. The addition the smoke house will expand the services provided by Your Choice Meats. The applicant has paid all fees and costs and taxes are current.

*For any special use requiring a supply of water that the applicant has demonstrated a source of water which is adequate for the proposed use in terms of quantity and reliability and in the case of human consumption, quantity, quality, and reliability.*

The property has an existing Quality Water tap and has been issued a permit from the Northeast Colorado Health Department for an engineered septic system.

## **Staff Comments**
