Re: RFP 2024-1121-001

### **\*Questions and Answers**

1. Good afternoon, is the county willing to answer questions on the type of trailers and quantity of trailers preferred? For the road work we would prefer belly dump trailers, for hauling stockpile to stockpile, belly dumps, belt trailers, end dumps, side dumps are all acceptable as long as they don't exceed the maximum height defined in the RFP packet. As for the number of trucks/trailers, we only wrote the quantity question in the RFP so we can determine the amount of resources an individual company has available, should we need it.

Thank you,
